Challenges and Opportunities in Our Borderless World
In the face of accelerating turbulence and change, business leaders and policymakers need new ways of thinking to sustain performance and growth.

Wharton School Publishing offers a trusted source for stimulating ideas from thought leaders who provide new mental models to address changes in strategy, management, and finance. We seek out authors from diverse disciplines with a profound understanding of change and its implications. We offer books and tools that help executives respond to the challenge of change.

Every book and management tool we publish meets quality standards set by The Wharton School of the University of Pennsylvania. Each title is reviewed by the Wharton School Publishing Editorial Board before being given Wharton’s seal of approval. This ensures that Wharton publications are timely, relevant, important, conceptually sound or empirically based, and implementable.

To fit our readers’ learning preferences, Wharton publications are available in multiple formats, including books, audio, and electronic.
